

Top tips for introducing Bookbuzz Secondary to your students

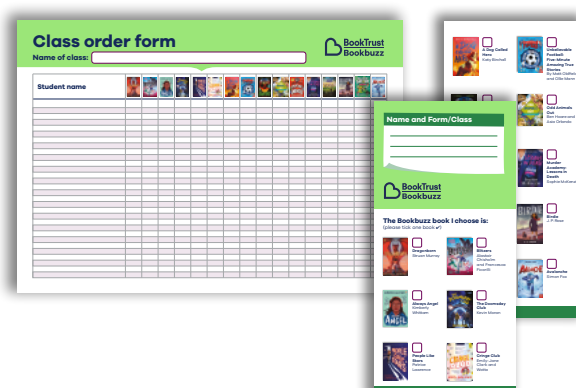

Here are some ways you might introduce Bookbuzz Secondary to your students in their library session or English class.

- Download and print copies of the **What's my favourite genre?** quiz from the Bookbuzz Secondary Coordinator Area to help your students narrow down their choice from the full collection.
- Watch the **Bookbuzz Secondary Film 2026** and hear the authors pitch their book to your students. This film is a great tool to support students in making their choice for their favourite title.
- Share the longer synopsis of each book with students to give them more information on the collection, search booktrust.org.uk/bookbuzz-secondary-books.
- Download the **Bookbuzz Secondary PowerPoint** from the Bookbuzz Secondary Coordinator Area. Have this on the screen and encourage students to discuss which book appeals to them. We've created a short discussion guide to help with this.
- After the students are familiar with the books and have made their selection, they can mark which book they'd like on their **My Choice Bookmark**. You can then keep hold of the bookmarks until you're ready to order.

Once you have collected the **My Choice Bookmarks** back from the students, download and print a copy of the **Class Order Form** from the Bookbuzz Secondary Coordinator Area, then mark off each student's selection before placing your order.

Keep the form and My Choice Bookmarks safe. Use the bookmarks to label each student's book when it arrives.

A collage of three forms. The largest form in the background is the "Class order form" with a grid for student names and book selections. Overlaid on it are two smaller forms: "Name and Form/Class" and "The Bookbuzz book I choose is:", both featuring book covers and checkboxes for selection.
